Architectural glass and metal has gained a lot of popularity in the recent years, for their use in residential and commercial establishments. Widely used for decorating purposes, architectural glass and metal can be used to decorate the interiors as well as exteriors of a building.

Being sturdy and durable, glass and metal are used in various architectural applications, such as building rehabilitation, renovation, new construction, and tenant interiors. At NYC Glass Works, we offer comprehensive architectural glass and metal services, including curtain walls, glass railings, glass canopy, glass stairways, skylight, metal panels, counter tops, among others.

Known for our no-nonsense style, NYC Glass Works is committed to responding to our customers needs in offering them accurately sized products and installation services catering to their budget and schedule requirements. We take pride in being one of the leading manufacturers of architectural glass and metal in the New York area.
